Product Sheet
Autodesk Maya, BJPU keyboard

The dedicated LogicKeyboard makes controlling Autodesk Maya a lot simpler and faster. It is ideal for animation studios and post-production facilities and anyone else who requires all the custom key commands to readily accessible from a dedicated, clearly labeled, colour-coded keyboard. Using this keyboard is also a great way to learn the Autodesk Maya key commands. And since the Autodesk Maya dedicated keyboard also features all the regular letter, number, and symbol labelling that you will find on a conventional keyboard, it can simply be used as a substitute for it..

The MAYA & BJPU features & benefits

- Designed for Autodesk Maya
- Compatible with Windows 7-10
- Robust Pro-line full-color coded keys
- Scissors Switch keys
- Built-in USB 2-port 2.0 hub
