

HDMI Converters

Hi5-4K-Plus

4K/UltraHD-SDI to full HDMI 2.0 Converter

The Hi5-4K-Plus keeps pace with the expanded data rates of HDMI 2.0, providing up to 18 Gbps. This higher data rate supports the rich color of 4:2:2 and 4:4:4 chroma subsampling in 4K/UltraHD up to 60 fps. Preserve pristine image fidelity and color depth from professional 4K HFR devices when monitoring to cost effective HDMI 2.0 displays, and ensure complete compatibility with SMPTE 2SI (Two Sample Interleave) support.

\$695 US MSRP*

Features:

- Fully supports HDMI v2.0 to the maximum 18 Gbps for 4K/UltraHD 50/59.94/60 4:2:2/4:4:4
- Supports both quadrant (square division) and 2SI (two sample interleave) 4K mapping
- Configure via USB port and supplied Mini-Config software
- 5 year warranty
- Supports Quad 3G & 1.5G/Dual Link 3G/3G-SDI
- Embedded audio support 8-Channel 24-bit
- DWP-U-R1 power supply included
