

# ONYX™ USB INTERFACES

BE CREATIVE WITHOUT LIMITS

RECORDING

Combining high-resolution 24-bit/192kHz converters with premium Mackie analog circuitry and Built-Like-A-Tank™ hardware design, the bus-powered Onyx™ Artist 1•2 and Producer 2•2 are the ultimate recording solution for home studios, content creators, mobile recording, and more. The Artist 1•2 features an Onyx mic pre with phantom power plus dedicated instrument input perfect for singer-songwriters and podcasters. The Producer 2•2 steps it up with dual Onyx pres, MIDI I/O and more.

## FEATURES

### PREMIUM ANALOG CIRCUITRY

Utilizing our proven Onyx™ mic preamps, Onyx USB Interfaces deliver true studio-quality sound with maximum headroom and ultra-low noise.

### DIRECT MONITORING

Featuring a latency-free monitoring path directly from the inputs means you can track while listening in either mono or stereo with zero signal routing needed allowing for maximum computer performance.

### GET CONNECTED ANYWHERE

Powered by USB 2.0, you can take your studio with you anywhere. Just plug into your Mac or PC and you are ready to go, no external power required.

### TRACKTION™ RECORDING SOFTWARE + DAW ESSENTIALS COLLECTION™ PLUG-INS

Includes a full copy of Tracktion's multi award winning T7 DAW that offers a professional feature set and unlimited tracks allowing you to compose, record, edit, mix, and share your music with ease. Boost your creativity and get the perfect mix with Tracktion's DAW Essentials Collection™ of 16 premium plug-ins compatible with all DAW's.
