

Stop the pain!

Available in the online shop

Originally the healing Magnetar was developed by Michael Stroh for his wife that suffered from headache and chronic fatigue. After years of research and development a whole new world of the magnetism was revealed before us.

“Since I use the healing Magnetar my life is finally pain free and full of energy.”

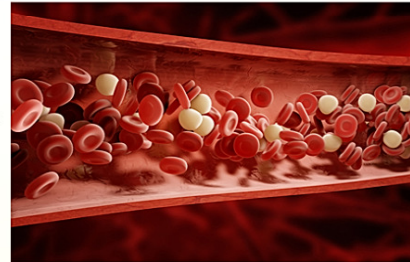

Our high-energy magnet has a special structure and magnetization. We generate a powerful magnetic field with a big concentrated magnet magnetic flux, emanating from him and has an effect at the usage of it on the cells and energetic points of the human body, which are within the magnetic flux.

Our magnets give you the opportunity of self-treatment at home

At the usage of our magnetar the Iron circulation is being promoted whereby more oxygen is being transported to damaged cells and waste is taken away. This is for the body vitality, balance and general well-being of great importance.

When insufficient magnetic energy is available, to recharge your inner batteries, our body becomes weary and run-down. The application of an supplementary magnetic flux guarantees that ilable, to polarize and structure the cells.

This leads to balance, more energy and gives rise to a feeling of well-being.

Application area

The magnetic field therapy against diverse diseases or injuries like pain of any kind, headache or migraine, tensions, osteoarthritis, osteoporosis, Nervous system and thyroid disease etc. Wrong nutrition and stress can destroy the harmony of our own biomagnetic field but with the use of the Magnetar, which generates a swinging, body similar magnetic field that helps to recover our body harmony.

Our magnet products are gladly used in daily life particularly for **Aching, Neck and back pain, tensions and similar complaints.**

For the following symptoms our magnets can be supportive:

- Rheumatic complaints
- joint pain
- After bone fractures
- infections
- pain
- Varicose Veins
- circulatory disorders
- vasculitis
- osteoporosis
- muscle spasms

Energy of this magnet produces the following effects on the body:

- Increases cellular oxygen
- Reduces fluid retention
- promotes deep restful sleep
- fights infections
- promotes mental acuity
- supports biological healing
- Reduces inflammation
- Normalizes acid-base balance
- Relieves / stops pain
- Reduced / dissolves fat deposits
- Reduced removes lime deposits

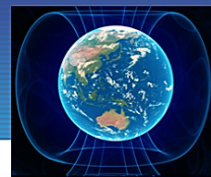

application examples:

- for therapists
- for healers
- for people that want to help themselves

„Bioenergetic“

„The living nature can't live without magnetism“

energetic water treatment

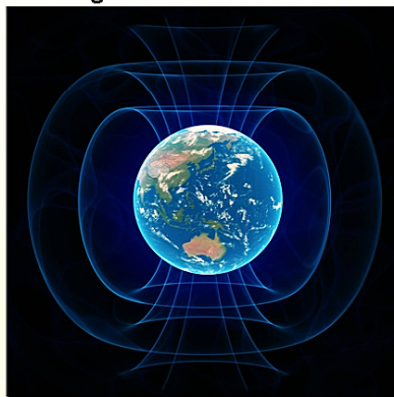

„Bioenergetic deficiency and disharmony are the causes of many complaints“

Our earth is surrounded by a natural magnetic field. This magnetic field of our earth is constantly changing and breaking down.

That means that the bio magnetic fields, which are essential for humans are constantly losing their strength.

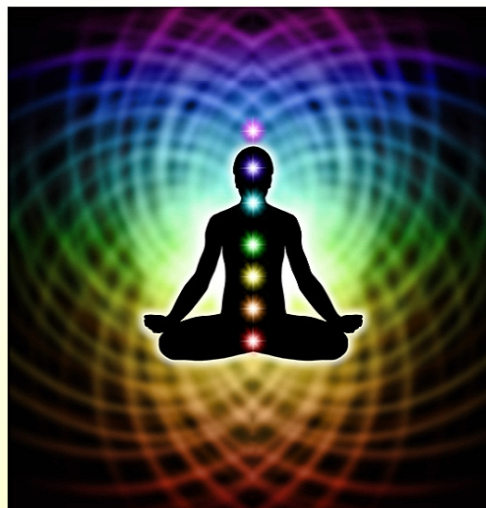

The magnetic field lost in average more than 1.7 percent of its strength all around the world. Over the south Atlantic there are already over 10 percent of it lost. Because of that deficit there can occur certain interferences in our health, like discomfort, malaise, shiftlessness and sleeplessness etc.

The effects of magnetic fields on a human body are already known for thousands of years. Already the Egyptian, Chinese, Greeks and Romans used magnetic rocks for healing of diseases, pain relief and vitalization. Even the Greek doctor Hippocrates knew about the healing power of magnets and recommended them for the treatment of epilepsy and inflammations. About the magnetic field therapy, that is older than acupuncture exist a lot of scientific treatment but those therapies are disputed in the Conventional medicine, while they are being successfully applied in the Naturopathy.

A few scientist speak already of the “Magnetic Deficiency Syndrome”

The oldest cultures taught us that the life energy of organisms depends on magnetic field energy. The living nature can't live without magnetism.

The magnetic field energy is often used for energizing and structuring of the human body, to achieve a balance between body and spirit. Investigations found out that magnetic energy is stimulating the metabolism in the human body and is involved in all essential operations in the body.

Because of the enrichment of the human organism with the magnetic energy promotes the blood circulation and strengthens the immune system. Likewise this therapy is used for osteoporosis and interferences in the wound healing process.

The smallest “living” unit of the human is the cell. Every human consists of about 100 trillion cells. All cells need to have oxygen and nutrient supply, have individual tasks and excrete waste.

Between the outer- and the inner side of the cell membrane there is an electrical voltage, the so-called membrane potential.

The cells also communicate constantly with each other.

Wrong food, environmental pollution, stress and a lot more environmental influences can affect negatively the membrane potential that normally has a voltage of 70 – 90 millivolts. Because of that the cells work poorly.

If other burdens like smoking of alcohol join in, complaints like constant fatigue, headache, performance degradation and Sleep disorders can arise.
